

## Introduction

American Innovations is pleased to announce version 7.4.4 of our Pipeline Compliance System (PCS) software. This document identifies defect resolutions available in this software release. If you have questions or need additional information, contact PCS Technical Support at [pcstechservices@aiworldwide.com](mailto:pcstechservices@aiworldwide.com).

## Defect Resolution List

---

### Sync and Verify

Sync and verify in Two-Synchronization works correctly when *Export Setting* fields in System Settings are disabled or enabled.  
(TFS 7666)

---

### Linked Documents

The grid field *Facilities Linked Documents* now supports file names with up to 240 characters.  
(TFS 7265)

## PRODUCT SUPPORT & TRAINING

If you have a suggestion, question, feature request, or a bug to report-your feedback would be appreciated. Also if you have a training need for your organization or would like to know more about upcoming PCS training classes, please use any of the following contact information to reach PCS Technical Support:
