

## Field Data Collection for iOS

Part of the [PCS Field Integration](#) suite of hardware and software solutions, PCS Field Data Collector for iOS enables you to perform annual, periodic, DCVG, and close interval surveys, and validate inspection data in real time.

**Visualize** survey routes with maps, and quickly identify and troubleshoot problems. Continuous improvements make it easy to stay ahead of survey demands.

**Integrate** seamlessly with the DVM2130 digital voltmeter, built specifically for the cathodic protection industry.

**Sync** surveys [wirelessly](#) using PCS Wireless Sync, American Innovations' SOC2-Compliant cloud integration technology.

# PCS Field Data Collector Requirements

- ✓ iOS version 15 or 16. Optimized for use with the DVM2130 digital voltmeter and the following Apple devices:
  - iPad 7th through 9th generations (Compatible survey accessories available)
  - iPad 10th generation
  - All generations of iPad Pro
  - iPad Air 3rd generation and later
  - iPad mini 5th generation and later
- ✓ PCS 2.2 and PCS Survey Manager, if using PCS Wireless Sync
