

Field Data Collection

Purpose Built for
Corrosion Prevention
and Control

Part of the [PCS Field Integration](#) suite of hardware and software solutions, PCS Field Data Collector enables you to perform annual, periodic, DCVG, and close interval surveys, and validate inspection data in real time. Available for Android devices on Google Play, Allegro AX Field Data PC via the American Innovations Support Site, Apple iOS devices on the App Store, and Windows devices via the American Innovations Support Site.

Visualize survey routes with maps, and quickly identify and troubleshoot problems. Continuous improvements make it easy to stay ahead of survey demands.

Integrate seamlessly with the DVM2130 or DVM1110 digital voltmeters, built specifically for the cathodic protection industry.

Sync surveys [wirelessly](#) using PCS Wireless Sync, American Innovations' SOC2-Compliant cloud integration technology.

PCS FIELD DATA COLLECTOR REQUIREMENTS

Device and Software Requirements

- ✓ [Mesa Android Rugged Tablet](#) with DVM2130 digital voltmeter
- ✓ Apple devices: iOS version 16 or above for certain iPads. Optimized for use with the DVM2130 digital voltmeter.

- ✓ Windows devices: Mesa Windows Rugged Tablet or Windows devices running Windows 11. Optimized for use with the DVM2130 digital voltmeter
- ✓ [Allegro AX Field Data PC](#) with DVM1110 digital voltmeter

FAQs

Where can I find more information?

Contact customer support via phone (800-229-3404) or email (support@aiworldwide.com) or your sales representative or the American Innovations Support Site (support.aiworldwide.com).

Where can I download new versions of the PCS Field Data Collector software?

- ✓ Mesa Android Rugged Tablet users: download from the [Google Play Store](#)
- ✓ Allegro AX Field Data PC users: download from the [American Innovations Support Site](#)
- ✓ Apple device users: download from the [Apple App Store](#)
- ✓ Windows users: download from the [American Innovations Support Site](#)

Do I need an internet connection to use the PCS Field Data Collector software?

An internet connection is needed for initial login to the software, but typical use of the software does not require an internet connection.

How frequently do I need to reauthenticate my login credentials for the PCS Field Data Collector software?

After logging in initially, users need to reauthenticate every 90 days with an active internet connection.

NOTES. The DVM2130 and DVM1110 digital voltmeters have an IP67 rating for moisture and dust protection, operating temperature range of -4° F to 122° F (-20° C to 50° C), and storage temperature range of -22° F to 158° F (-30° C to 70° C). Refer to your host device documentation for additional environmental specifications/ratings.
